Choline ... 300mg
Inositol ... 150mg
L-Methionine ... 150mg
Taurine ... 100mg
Trimethylglycine ... 100mg
Turmeric Extract ... 75mg
(standardized to contain 95%
curcuminoids
Milk Thistle Extract ... 75mg
Artichoke Extract ... 50mg
Other Ingredients: hypoallergenic plant
fiber (cellulose), ascorbyl palmitate,
vegetarian capsule (cellulose, water)

Trimethylglycine and turmeric can cause G.I. upset, including nausea or diarrhea. Artichoke and curcumin should be used with caution in patients with bile duct obstruction.

Supports healthy fat metabolism in the liver for overall hepatic function and detoxification. The lipotropic agents choline, betaine, methionine, vitamin B6, vitamin B12 and folic acid support healthy hepatic fat metabolism and bile flow. Efficient processing and breakdown of fats in the liver maintains healthy overall liver function and detoxification. As methyl donors, these same nutrients are also critical for methylation, a widespread biochemical process in the body that involves transferring a methyl group to another compound. Methylation of DNA supports healthy DNA integrity and stability, important for liver, colon and overall cell health. These nutritional factors are also highly recognized for their ability to maintain healthy homocysteine metabolism. Taurine, curcumin, silymarin and artichoke have been added for their abilities to support healthy bile flow, gene expression and the body's normal toxin metabolism.

RECOMMENDED USAGE: 2 capsules, 3 times daily, with meals.

Supplements

Multivitamin

One MF

\$34.99

Seeking Health

45 capsules /bottle

Multivitamin One MF by Seeking Health provides a wide variety of nutrients in well-absorbed or active forms in a convenient capsule format. Unlike our other encapsulated multivitamins, this pared-down formula packs essential nutrients and herbal support into a single capsule taken just once daily. This unique multivitamin is also free of methylated B vitamins (i.e. methylcobalamin and methylfolate) to support those sensitive to methyl groups. Daily supplementation of essential macro- and micronutrients, such as those included in Optimal Multivitamin Minus One, may help contribute to proper nutrition and optimal health as part of a well-balanced nutritional program.

RECOMMENDED USAGE: Take 1 capsule daily with breakfast or lunch, or use as directed by your healthcare professional. Capsules may be opened and nutrients taken separately or sprinkled into food or drink. Do not take within 5 hours of bedtime as it may interfere with sleep.

Supplement Facts

45 serving per container
